## Curriculum Framework for: **FOREIGN LANGUAGE**

### ❖ **PHILOSOPHY** ❖

*The study of languages provides important experiences in exploring the culture, history, folklore, traditions, everyday life, and language of other people. The global society and Christian perspective emphasize the need to cultivate international understanding and appreciation for our world's diversity and God's creation through effective education. As a result, students are enabled to live more fully a life of Christian citizenship in this changing global society.*
