**Payment of Allowable Fees** A Choice student cannot be charged fees for registration or application to the Choice program, books, teacher salaries, buildings, maintenance, equipment, or computers. A private school may charge a Choice student reasonable fees for certain personal use items.

**Special Education Services** A Choice school may not discriminate against a student with special needs during the admissions process or elsewhere. However, as a private school, the Choice school is only required to offer those services to assist students with special needs that it can provide with minor adjustments. Parents should contact the public school district in which the private school is located for more information on the services provided to students with special needs enrolled in the public schools and the lesser services that school district provides to those students enrolled in private schools.
